Did you know that Planned Parenthood's Free Condoms were found to be the worst condoms on the market of 23 different brands by Consumer Reports?

\*Think it through: when the condoms fail you'll be back for more 'services' from testing for sexually transmitted disease to pregnancy test and termination (abortion, murder of your tiny family member) and after you kill your baby you have an even greater risk of breast cancer. So, they'll make even more money screening for that!

**It's win-win for them and lose-lose for you!**

**Who really cares?**  
**Those who expect a return on their FREE promotion for their business or your family?**  
**Those who know you will return 'needing' their Service\$**  
**or those who will receive nothing from you?**  
**Those who profit, at your expense, by lots of sex or those who want to protect you from sexually transmitted disease and loneliness.**

This is a Powerful Dose of Medicine

**WILL YOU TAKE THE BAIT? WHAT WILL**

EC so called 'emergency contraception' aka MAP 'morning after pill' aka 'Plan B' consists of two high dose progestin pills 0.75mg Levonorgestrel (forty times the daily dose of some birth control pills).

Can you imagine taking almost 2 months of birth control pills at once!

\*Think for a minute: You're supposed to have a prescription from a doctor for the regular pills because it is a powerful drug, altering the way your body is supposed to work. ( We know the 'pill' causes heart disease, cancer and stroke)

Plan B most often causes an abortion, since it works by inhibiting the transport or preventing the implantation of a fertilized egg.

\*That fertilized egg is a new human being, complete with 46 chromosomes, 23 from Mom's side of the family and 23 from Dad's side of the family. That newly conceived human, who will die if prevented from reaching and implanting (snuggling) in the mother's womb, is a part of the family.

Plan B has been associated with many serious side effects, such as allergic reactions, from rashes to breathing difficulties and severe headaches to general "all over sick" feeling. There have been cases of gall bladder disease (which is extremely painful and often requires surgery) and is often associated with depression, bleeding problems and irregular periods.

[www.medscape.com/viewarticle/442258](http://www.medscape.com/viewarticle/442258)) [www.fda.gov/ohrms/dock-ets/ac/03/transcripts/4015T1.pdf](http://www.fda.gov/ohrms/dock-ets/ac/03/transcripts/4015T1.pdf)) [www.previn.com](http://www.previn.com)

"I don't really remember the details, I just saw a lot of blood and baby body parts. Then, I kept bleeding for more than 2 weeks." NH Teen, given EC in the summer 2005. "They didn't ask me any questions, they just said "Here, take this 'just in case'" She had been drinking and drugging off and on through the summer. DID THEY CARE?

EC may cause ectopic or tubular pregnancies, which may be fatal to the mother.

\*That means the baby could grow in the tube and burst it, killing the mom.

Plan B offers absolutely NO protection against the 30 or so diseases that are out there everyday. \*BTW Pregnancy is not a disease or an emergency!

There *is* a better way.

The fact of the matter is that you don't have to have sex with him at all. If he loves you, let him prove it by protecting you, your health and your dignity. If you love him, show him by protecting him. Don't use each other. Real love is not self-seeking. The Truth is, there is Creator who put together all the many laws that govern the universe. From gravity to sowing and reaping. You know, if you sow a corn seed you get lots of corn. If you plant a kernel of wheat you get lots of wheat. Our Creator cared so much for us that He had people write books to tell us how to live well while we are alive here on earth. People put the books together in the Bible. In there we find that having lots of sex in marriage is a very good thing, but when it's outside of that it's like sowing seeds of pain and grief. The desperate loneliness and fear and diseases are not worth the few minutes of pleasure.

The Bible says, "I call heaven and earth as witness against you, that I have set before you life and death, blessing and the curse. Therefore; choose life that **you** and your descendents **may live**."
